How to set up your audio guestbook phone?

1 Connect the handset

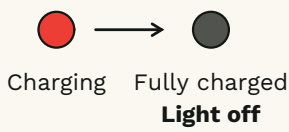

Plug the coiled cable into the handset and base.

2 Charge & power on

Type-C

Fully charge with a DC 5V adapter.
Then press and hold the power key.

3 Set your welcome message

Keep the handset down.

Hold the centre button for 6 seconds.

After the beep, keep holding and speak.

Release to finish.

Prefer a pre-recorded greeting?

Connect via Type-C and copy your audio into the “Greeting” folder.

4 Let guests leave a message

1 Pick up

Listen to the greeting.

2 Leave a message

Speak after the beep.

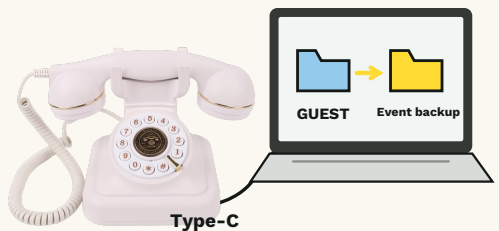

3 Hang up

Audio saves automatically.

5 Export all messages & prepare for next events.

Connect the phone to your computer via Type-C. Copy all recordings from the GUEST folder and check your backup.

Recharge, update the welcome message and test before the next event.
